Jupiter Energy Limited (“Jupiter” or the “Company”)

**QUARTERLY UPDATE ON ACTIVITIES FOR THE 3 MONTH PERIOD TO 31
MARCH 2026**

KEY HIGHLIGHTS:

- **Unaudited oil sales revenue (including VAT) for the Quarter ending 31 March 2026 totalled ~\$US1.68m/~\$A2.4m (~38,000 barrels of oil).**
- **Oil sales for the Quarter were all through domestic sales channels – with all oil sold to a major domestic refinery. There were no sales into the export market during the Quarter.**

Jupiter Energy Limited (ASX: “JPR”) presents the following update on activities for the 3-month period ending 31 March 2026 (the “Quarter”). Also included in this report are details of any subsequent events that have occurred up to the date of this release.

The Quarter in brief:

During the Quarter oil production was in line with expectations. All production wells are operating under their Full Commercial licences. Oil sales are subject to a monthly domestic quota that is set by the Kazakh Ministry for Energy. Oil produced outside this domestic quota allocation can be sold through other channels, including into the export market.

1Q 2026 Oil Sales:

During the Quarter, unaudited oil sales revenue (including VAT) totalled ~\$US1.68m (~\$A2.4m) based on sales of ~38,000 barrels of oil into the Kazakh domestic market (average price of ~\$US44/bbl).

Cash receipts for the Quarter were ~\$A2.356m.

Approximate production of oil, by field, for the Quarter, was as follows:

- Akkar North (East Block): **~8,000 barrels** (production from J-50)
- Akkar East: **~20,000 barrels** (main production from wells J-52 and 19)
- West Zhetybai: **~10,000 barrels** (production from J-58)

A workover of the J-51 well was completed during April 2026 and it is expected that production from this well will now contribute an additional ~100 barrels per day to cumulative production.

Workovers of both the J-50 and J-58 wells are now being considered.

Domestic Oil Sales:

Oil sales during the Quarter were made through two Joint Ventures. All oil was sold into the Pavlodar refinery and unaudited oil sales revenue (including VAT) totalled ~\$US1.68m (~\$A2.4m) based on sales of ~38,000 barrels of oil (average price of ~\$US44/bbl).

All costs associated with the storage and transportation of the oil sent to Pavlodar were met by Jupiter.

Mini Refinery Oil Sales:

There were no sales of oil through local mini refineries during the Quarter.

Export Oil Sales:

There were no sales of oil into the export market during the Quarter.

The Company continues to monitor the export oil pricing formula being offered by traders and will revert to this sales channel when the net price achieved is superior to pricing being offered via other available domestic sales channels.

As is required under ASX disclosure rules, the Company confirms that it currently holds the following licence:

Answer: No

8.8.3 Does the entity expect to be able to continue its operations and to meet its business objectives and, if so, on what basis?

Answer: Yes – as outlined in the answer to Qu 8.8.1, the Company expects to have stronger sales revenues in 2Q 2026, ensuring operations remain cashflow positive.

Note: where item 8.7 is less than 2 quarters, all of questions 8.8.1, 8.8.2 and 8.8.3 above must be answered.
